Section 1—Our Company Profile

Al Fajer Emergency Medical Services LLC:

Al Fajer Emergency Medical Services (Al Fajer EMS) is a recent addition to Al Fajer Enterprises, one of Dubai's prominent holding companies. Established in 2006, Al Fajer EMS aims to provide professional and high standard first-respond emergency medical services in communities and public areas.

Al Fajer EMS thrives to be the leading company in its field providing complete turn-key service solutions that meet the highest international standards.

Our Mission

The United Arab Emirates, Dubai specifically, has experienced unprecedented growth in the past few years that attracted a large number of expatriates to the country. In addition, property boom stretched the communities geographically. Dubai, for example, witnessed the birth of complete new communities in the last year alone. The rest of the Gulf States experienced similar scenarios on a smaller scale.

In the case of Dubai, the population and communities' growth created a challenge for the Dubai Health Department. As a result emergency services are struggling to keep up with the demand. Moreover, providing these services in a timely manner has become even more challenging as traffic congestion increased (s) every day. Al Fajer EMS aims to fill this gap.

In cooperation with local health departments, Al Fajer EMS's mission is to become the region's leader in providing turn-key emergency medical services solutions to ensure residents receive timely, professional, internationally accredited and high-standard services.

Section 2—Products & Services

Al Fajer EMS provides turn-key first-respond solutions. From staffing to training, from ambulances to medical equipments, Al Fajer EMS caters to local health department ever-changing needs. The following is a list of what Al fajer EMS offers:

- 1. Training & Certifications:** In its effort to obtain and maintain highest standards possible, Al Fajer EMS has entered partnership agreement with world-renowned institutes in the field of medical training: Lancashire Ambulance Service (a semi government organization from the United Kingdom) and American Safety & Health Institute (a non-profit organization from the United States).
 - 2. Ambulance and ambulance equipments:** Al Fajer EMS arranges for ambulances and/or ambulance equipments as per international standards or as per the local health department specifications.
 - 3. Ambulance services:** Patient transport to local hospitals and patient transfer between hospitals/clinics.
 - 4. On-site emergency services units (mini ICU's):** equivalent to stationed ambulance that provides first-aid-response to public areas and small communities. These units function as ambulance without transferring patients. These units could be positioned in airports, schools, sport clubs, sport activities, conferences, exhibitions, hotels, and construction sites shopping malls, commercial and residential buildings.
 - 5. Paramedic staffing:** Al Fajer EMS provides trained and qualified paramedics.
-
